Armour Home Electronics R&D Department

Systemline E50 is an integrated fitted *Bluetooth* music system which includes a touch sensitive and gesture controlled touch panel fitted into the wall. The touch panel contains amplification for speakers, *Bluetooth* aptX™ enabled receiver and auxiliary line inputs on the front and rear, all contained within one 47mm double gang back box. E50 has been designed to be easy to install and very user friendly, making it perfect for kitchens, living rooms and bedrooms.
